## APEX Soft Close Sliding door kit

The Apex Soft Close Sliding door kits are designed for popular glass sliding doors in homes, offices and customer facing displays. Designed to work with 10–12mm glass and smooth running, hydraulic soft close feature makes this a popular well priced solution. No holes or cut-outs are required in the glass making it a simple, fast and cost-effective system.

The Slim 83 x 53mm sliding track profile is designed to accommodate for top fixing, side fixing, or sidelight glass mounting and is supplied in a ANO or Black finish track, plastic end caps, 2 x door guides, 2 x soft close and wheel runner kits and stoppers along with a finger pull and fixings. Maximum door weight 120 kgs.

## Bottom Wheel Roller Sliding Door System

The Linear sliding door system is a bottom roller sliding frameless glass door system. This frameless sliding door hardware features Linear wheels fitted directly to the 10/12mm Glass that are run on special tracks to allow a very modern frameless glass effect. The floor is load-bearing and the head structure does not need to carry the weight of large doors. Individual fittings available on request. System can be used with multiple lines of track for several doors opening in the same direction and biparting applications.

Specify 10mm or 12mm glass thickness on order.

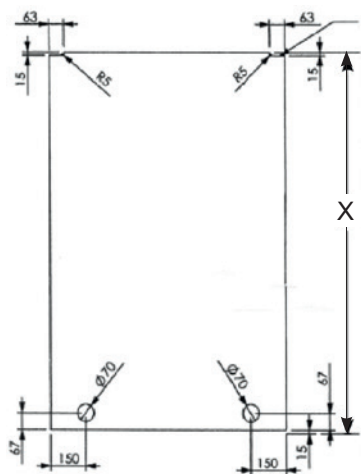

Each door kit contains:

- 2 x Wheels Stainless Steel
- 2 x Top Channel stops
- 1 x Top Channel & Woolpile 5mtr
- 1 x Bottom Track

## GLASS CUT-OUT DETAILS

# ECLIPSE CONCEALED SLIDER DOOR SYSTEM

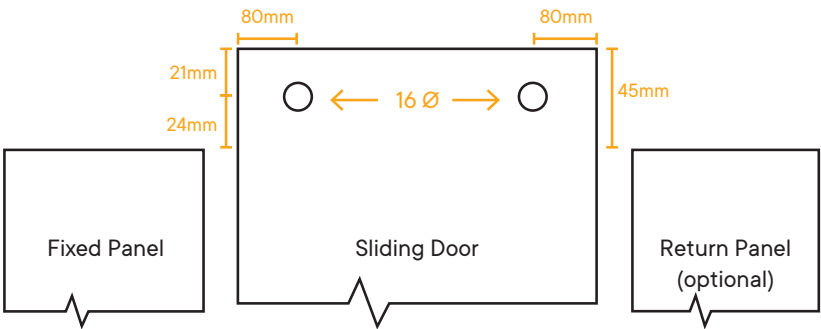

ECLIPSE Concealed Sliding Door System	FINISH	ORDER CODE	PRICE
	Polished Chrome	SH808-C	
	Black	SH808-BK	
	Brushed Brass	SH808-BB	
	Brushed Stainless (Nickel)	SH808-BS	
	Gun Metal	SH808-GM	

Opus Hardware's ECLIPSE System is a concealed modular roller sliding door kit and requires holes only in the sliding door so standard 10mm undrilled plain panels can be used on the side and return panels. The sliding rail track sits on top of the fixed panels and can be used for alcove or corner showers by simple mitre cuts.

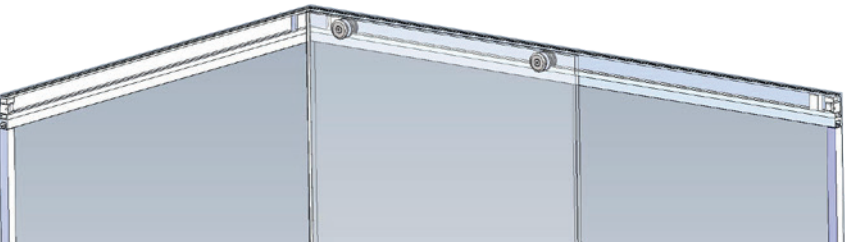

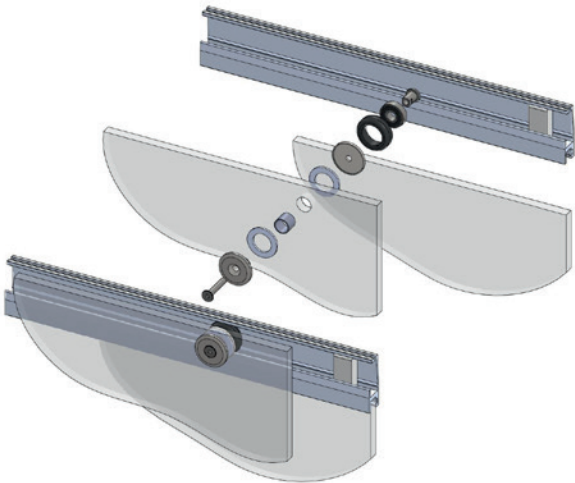

Kit comes with rollers, stop blocks, door guide and 2.5m of sliding track extrusion.

Handle is not included. Max door weight is 45kgs

\*Wall channels should finish 10mm below top of fixed glass panels, this is to allow for top track.

\*Components must be slid into top track before top track installation.
